

PLEASE READ THE REMINDERS BELOW TO ENHANCE THE ENJOYMENT OF YOUR NEW **COSTA COFFEE** CUP.
THANK YOU FOR YOUR PURCHASE!

USAGE & CARE INSTRUCTIONS TO PREVENT DAMAGE & INJURY

WARNINGS

1. Do not fill with liquids over 90°C (194°F). Extremely hot liquids can cause pressure buildup, which can lead to ejection of liquid and scalding. Do not shake your cup / bottle, and keep upright at all times. Do not over-fill. Ensure your lid is fully tightened before use.
2. This cup/bottle is designed for the use of hot liquids in mind, please take care as hot liquids can cause injury. It is difficult to judge the temperature of your beverage through the insulated walls so please be careful.
3. Hot Liquids can create internal pressure resulting in a dangerous release of hot water vapour. Always let your drink cool for a minimum of 3-5 minutes before putting on your lid. Always then open the lid on the cup/bottle in an upright position away from the face. Hot liquid can cause serious injury.
4. Do not wash or get the power bank unit wet.

CAUTION

1. KEEP OUT OF REACH OF CHILDREN.
2. Do not Microwave.
3. Do not Freeze.
4. Your product is not suitable for flammable, corrosive or chemical substances, carbonated drinks, dry ice, water soluble vitamins, dairy products, fruit juice, and drinks /soups with a high salt content.

CARE & USE

1. Body Dishwasher safe. We have to advise that putting your cup in the dishwasher may reduce the life of the cup, it is always better to hand wash your cup. If you do put the cup in the dishwasher please ensure that you place it on the top rack only, and away from any other items, to avoid drying marks. Should you have dishwasher drying marks put the cup body back in the dish washer and these will disappear.
2. Do not put your lid through the dishwasher, as this could degrade the materials, and could cause the seal to break - see point 1.
3. Do not soak. Hand clean before first use and wash after each use. Do not use any cleaning brushes made of metal or hard plastic, and never rinse using scouring agents, solutions or bleaches.
4. Should you have any product questions, please visit costa.co.uk
